

Providing contract packaging services and turnkey products.

PL Developments takes pride in its unwavering commitment to deliver the highest quality products while remaining meticulously attentive to cost control. We accomplish this through strategic sourcing, printing and manufacturing partnerships and efficient lean manufacturing processes.

We provide contract packaging services for many prestigious companies and our list of partners continues to grow. We originally secured our reputation in the OTC industry as the choice that is more than a source, but a resource for all packaging needs. Bringing the highest quality products to market in a cost-effective manner is our advantage. Our consistent record of impeccable service has paved the way for our continued growth. PL Developments' collective promise is to provide the best quality, service, and value to our customers, on time, all the time.
